

Talking Chips

Structured Discussion

1

Groups of 3 or more students

Provide a topic or question for students to respond to

2

3

Each student gets a set amount of “chips”

Students place a chip in the center of the table for each contribution

4

5

Redistribute chips after all chips are in the center

1. Quantity of chips determines how long students discuss a topic
2. Stress that silence is ok
3. Students can't give away their chips to avoid speaking
